

Inquire Integration

Revcord has partnered with Inquire and now has an integration to work with the Inquire App. Now your Rvcord systems can also act as your management system for all your Interviewing, Investigating, and Inspecting. Inquire creates interviews, investigations, and incidents using an Android or IOS Application. It can also be used as a transcription device. Stream them live, record with book marks and notes, create audio and chat conferences, and automatically upload to the Rvcord Server. Manage all of your interviews, investigations, and incidents in one location. Watch them live or later search on date, time, case ID, interviewer/investigator, interviewee, book marks, book mark notes, GPS location, and device ID. In addition, perform QA evaluations and run reports on any of the Search indices.

Verticals include:

- Insurance Companies - Document Insurance Claims with Centralized Storage
- Police Departments - Can be Used for Local and Remote Interviews of Investigations by Police Officers In-Car and Detectives
- Child Protective Services
- Marine Industry - Safety and Compliance Documentation
- Oil Field Industry - Safety and Compliance Documentation
- Fire Departments - Used by Fire Arsonist Investigators
- CSI Investigators - Used by Crime Scene Investigators
- Inspectors – Any Inspection Type Companies
- Law Firms - Backup to Depositions
