

REVCORD

LOGGING AS A SERVICE

WHEN THERE ARE BUDGET CONSTRAINTS YOU NEED OPTIONS!
INTRODUCING LaaS: LOGGING AS A SERVICE

HOW DOES LaaS WORK?

As budgets continue to tighten and funding is harder to obtain, Revcord saw a need to offer an alternative to the conventional "purchase" of Logging Equipment. Revcord has established Logging as a Service (Laas) which allows you to acquire new recording equipment without having to rely on capital budgets and expenditures. For an affordable annual payment, you can acquire a new Logging System including installation, training, and RevShield support.

By taking advantage of the LaaS program,
you will never have to purchase another Logging Recorder Again!

WHAT IS INCLUDED?

- Logging System configured for your specific recording needs.
- Recording equipment installation and user training
- 24/7 support with access to revcord's online support portal
- 24/7 system monitoring
- All Revcord software upgrades

WHAT ARE SOME ADVANTAGES?

- Affordable annual payment
- No approval for capital expenditures
- No RFP process
- Greater control over expected costs
- Agreement automatically renews after the initial five (5) year term and includes a hardware refresh

Laas INCLUDES:

- Recording Equipment
- Installation and End User Training
- 24/7 Support with Access to Support Portal
- 24/7 System Monitoring
- All Software Upgrades
