

The Revcord Challenge

Revcord Is Putting Our Money Where Our Mouth Is!

We are so confident you will love Revcord that we have introduced the Revcord Challenge, and we are putting our money on it. If you give Revcord a try for 30 days and you don't believe it is the best value and the best product for you, Revcord will pay you for your time. There will be no obligation or cost to you if you feel that Revcord did not meet the Challenge and we also will send you a \$500 American Express Gift Card for your time!

What do you have to lose!!!

A few reasons we feel you will love Revcord is how we go to market and our technology. We are simple to sell, simple to use, and simple to buy! In addition, we feel the following offers us a competitive advantage:

All inclusive ANI/ALI, Backup Management Software, Bookmarking and Call Commenting, Browser Based Client with Multiple Search Capabilities, Commercial Off The Shelf (COTS) Hardware, Editing a Call Copy (Redaction), Enterprise Operations – Virtual Universal View, Geo-Tagging And Incident Recreation, Instant Recall Lite and Install Recall Full, Multi-Channel Live Monitoring, Multi Tenancy, Multimedia Recording Inputs – Analog, Digital, VoIP, Video, Text and Multiple Screens, Next Generation 9-1-1 (NG9-1-1) i3 Compliant, Quality Monitoring and Call Taker Evaluation, Remote Monitoring Service Via RevShield. Reports and Statistics, Screen Recording Capture and Free Seating, Saving and Exporting a Multimedia Files/Playlists, and Trunked Radio Recording And ID Integration As An Option

In addition, Full HTML5 Support – After three years of development, Revcord now provides for 100% HTML5 browser support for audio and video. This means that the Revcord Web UI works on any HTML5 compliant browser. Use your IPAD, your phone, or your computer. In addition, it prevents security holes from hackers, provides for open standards, reduces CPU usage, reduces browser crashes, and many more advantages. Revcord believes any logger that does not support HTML5 for both video and audio is putting the User at risk. Revcord strongly encourages all Users to verify with their IT personnel and to know the importance of HTML5

Lastly Our Inquire Integration – Now your Revcord systems can also act as your management system for all your Interviewing, Investigating, and Inspecting. Inquire creates interviews, investigations, and incidents using an Android or iOS Application. Stream them live, text chat, create audio conferences, record with book marks and notes, and automatically upload to the MMS Revcord Server/MMS.

We Look Forward To Meeting Our Competition On The Field!
