REVCORD IQ3 IS THE NEW GENERATION OF SOFTWARE FOR INTERVIEWS, INVESTIGATIONS, AND INSPECTIONS.

Revcord IQ3 creates interviews, investigations, and incidents using an Android or IOS Application. It can also be used as a transcription device. Stream them live, record with bookmarks and notes, create audio and chat conferences, and automatically upload to the Revcord Server. Manage all of your interviews, meetings, investigations, and incidents in one location. Watch them live or later search on date, time, case ID, interviewer/investigator, interviewee, bookmarks, bookmark notes, GPS location, and device ID. In addition, perform QA evaluations and run reports.

Though there is no Federal mandate to record 504, Disciplinary, Parent-Teacher, or even Teacher Evaluation and Development meetings. Many of the educators that we have spoken with during our marketing analysis believe this would be a tremendous idea for the following reasons:

Accuracy – Generally minutes of these types of meetings are being documented in long hand form, often with many inaccuracies.

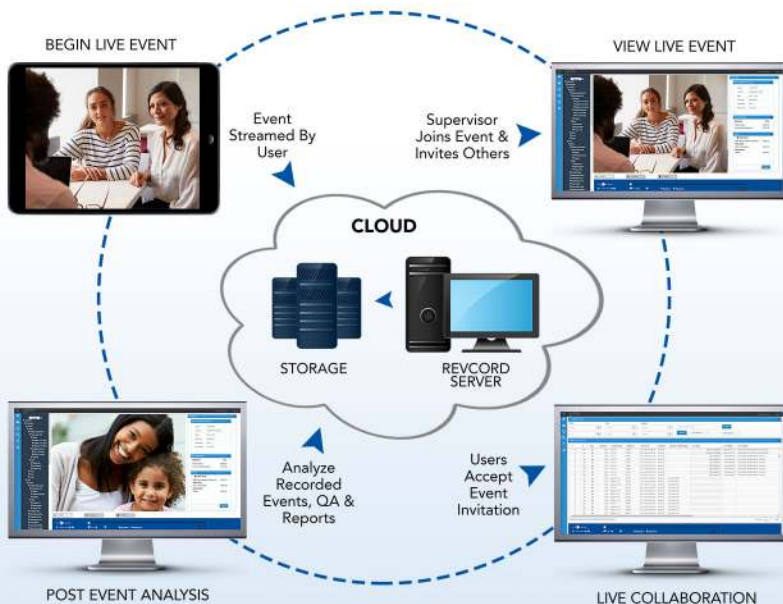

Participation – Many times teachers are unable to attend due to other obligations at the school or they find themselves at a different campus. Also, and more importantly, parents may not be able to attend due to work obligations or travel. IQ3 allows anyone with the appropriate rights to easily link into the meeting from any browser.

Reports – There are numerous reports that must be completed as part of these 504 or other meetings.

Liability – The Federal Ninth Circuit Court of Appeals recently reaffirmed that a student may establish a claim for damages under Section 504 of the Rehabilitation Act of 1973 if a school district violates Section 504 "intentionally or with deliberate indifference." Revcord captures 100% of record, both audio and video of all participants in the room (subject to camera alignment) and 100% of the audio coming in from outside contributors.

Disciplinary Hearings – Though similar in technology advantages from the IQ3 side, the disciplinary requirement varies between states and schools. Many schools require complete documentation for a suspension or expulsion.

It is the student's well-being that is the main concern and motivation. Giving the educators a more accurate and distributable record of any event will encourage participation, improve workflow processes and strengthen relationships between all involved.
