

COMMUNITY HEALTH PROGRAMS

NEXT GENERATION SOFTWARE FOR REMOTE HEALTHCARE

THE PROBLEM

- ✓ High Costs of Pre-Hospital Medical Care; 73% of All Calls Below Cost for Reimbursement
- ✓ Increased Number of Unnecessary ER Visits Contributing to Overcrowded ER's With Patient Stays Over 3 Hours
- ✓ High Hospital Costs Associated with Patient Readmittance for Chronic Conditions and Unreliable Care at Home.
- ✓ Increased Number of "Frequent Callers" of the 9-1-1 System Taxing Limited EMS & ER Resources
- ✓ Increased Number of Calls by Nursing Homes Requesting Routine Exams/Test in the ER That is Already Stretched Thin

THE SOLUTION

- ✓ Provides Link for Physicians & Leaders To View Patients & Staff Remotely
- ✓ Physicians See First Hand What The Patient's Illness Or Injuries Are
- ✓ HIPAA Compliant Live & Recorded Video With QA & Recording Analysis
- ✓ Complete On-Scene Management With The Ultimate Remote Triage Tool
- ✓ Invite Multiple Parties To Collaborate With Medical Events for Better Treatment

THE VALUE

- ✓ Reduce High Costs Associated With Non-Acute ER Visits by Providing Real-Time Medical Health Where the Patient "Is"
- ✓ Reduce Overcrowding & Long ER Stays by Connecting Patients to High Quality Medical Care and Services with Alternative Resources
- ✓ Reduce the Rate of Unplanned Ambulance Transports to the ER; Improve Patient Access to Care Through MIH-CP Integrated with Technology
- ✓ Connect "Frequent Callers" With Services That Address Non-Emergent Needs
- ✓ Significantly Lower Hospital Readmittance Costs of \$10,000 Plus for Non-Acute & Chronic Conditions

FEATURES

- Video Conferencing With Multiple Parties
- Text Chat, Notes, Bookmarks, Geo-Tagging
- Privileged And Confidential Documents
- Recorded Events For Post Event Analysis, QA & Reports
- Share Events With Other Investigators
- HTML5 And IE11 Compliant

REVCORD IQ3 MD IS THE NEW GENERATION OF ESCALATION, COLLABORATION AND ANALYZATION SOFTWARE FOR HEALTHCARE PROVIDERS

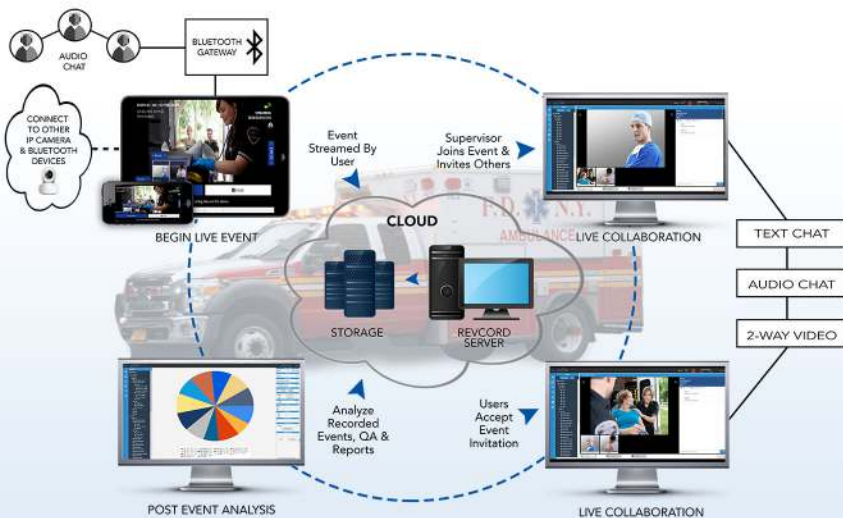

Revcord IQ3 MD creates events through the cloud using an Android or IOS Application. It can also be used as a transcription device. Stream them live, record with bookmarks and notes, create audio and chat conferences, and automatically upload to the Revcord Server. Manage all of the events in one location for better QA, Training, and Reporting. Watch them live or later search on date, time, patient ID, bookmarks, bookmark notes, GPS location, and device ID. In addition, perform QA evaluations and run reports.

Community Health Programs provide access to care through the Mobile-Integrated-Health Community Paramedic (MIH-CP) model that are realizing sustainability today across the nation. In "Community" titled roles such as Health Worker (CHW), Emergency Medical Technician (CEMT), and Paramedic (CP); are structured to provide patient-centered access in the field and with technology. The Centers for Medicare & Medicaid Services (CMS) are including MIH-CP and the use of telemedicine in the ET3 and reimbursement models.

Introducing the IQ3 MD app is a simple and effective way for community-based health personnel to record and interact with primary care providers, specialists, and healthcare professionals to improve a patient's access to care and helps reduce costs and overuse of the local EMS and ER departments

IQ3 MD enables both audio and video of the patient in real-time. IQ3 MD enables simple recording, bookmarking, chat, and streaming from any location on an Android or IOS device via Wi-Fi or cell phone service (Based on service carrier). Events are stored and managed in a secure cloud environment for later viewing, reformatting and distribution. Activity and audit reports can also be run to ensure a true "Chain of Custody".

Every Community Health Program working within the framework of MIH-CP needs a reliable and safe remote connection to Physicians, Specialists, and Healthcare Professionals. Studies have demonstrated that 34% of all Medicare patients transported by EMS to an ER could have been safely treated in an alternative setting; IQ3 MD offers a tool for Community Personnel that significantly reduces costs of unplanned ambulances transports to the ER and readmissions.

FEATURES

- Physician Has Direct Contact with The Patient
- Unlimited Viewers: Peer-To-All for Live Collaboration
- Ability to Transmit Vital Signs
- Hardware Agnostic
- IP Camera & Bluetooth Enabled
- Customizable Bookmarks, Notes, Private Text Messages (During Event)
- Fast Forward/Rewind – Live & Post Event
- Attached Files/Graphics to the Record
- Secure Cloud – Privileged & Confidential Document Storage
- GPS Location
- Preload Employees, Care Team Members, Physicians
- Livestream & Local Mode
- HIPAA Compliant
- HTML5 & IE11 Compliant
- Media Management System (MMS) – Data Analysis, QA, Reports
