

EVERGREEN PROGRAM

NEVER PURCHASE ANOTHER
LOGGER AGAIN

WHAT IS EVERGREEN?

The Evergreen Program is the new standard of support from Revcord.

Rercord found many users were not taking advantage of maintenance services, resulting in lower customer retention rates. Users who took advantage of maintenance services resulted in almost 100% retention.

All new systems shipped, effective 9/1/17, will include RSPLUSEG at no additional cost.

Includes version to version software upgrades, 24/7 technical support and 24/7 system monitoring by Revcord.

Once a system that is covered by RSPLUSEG reaches five years of age, Revcord will offer a hardware refresh for 25% discount off MSRP.

WHAT ABOUT EXISTING CUSTOMERS?

Existing customers can maintain their current RSSTD or RSPLUS coverage without the updates and support of RSPLUSEG.

For equipment less than five years, RSSTD and RSPLUS coverage can transition to RSPLUSEG for a 3% MSRP fee. Please contact Revcord for individual account details.

For equipment older than five years we are offering an upgrade incentive of a \$100 MSRP channel credit towards the purchase of new equipment. All systems upgraded through this upgrade incentive will include RSPLUSEG at no additional cost.

RSPLUSEG INCLUDES:

- 24/7 Support
- System Monitoring All Day, Every Day
- All Upgrades INCLUDED
- VIP Hardware Refresh: 25% Off @ 5 Years
- NO OTHER SYSTEMS NECESSARY
- ALL Revcord Features Included
