

# LAAS: LOGGING AS A SERVICE

WHEN THERE ARE BUDGET CONSTRAINTS  
YOU NEED OPTIONS!

## HOW DOES LAAS WORK?

As budgets continue to tighten and funding is harder to obtain, Revcord saw a need to offer an alternative to the conventional “purchase” of Logging Equipment. Revcord has established Logging as a Service (LaaS) which allows you to acquire new recording equipment without having to rely on capital budgets and expenditures. For an affordable annual payment, you can acquire a new Logging System including installation, training, and RevShield support.\*

By taking advantage of the LaaS program, you will never have to purchase another Logging Recorder again!

\*Prices Subject to Change.

## WHAT IS INCLUDED?

- ✓ Logging System configured for your specific recording needs.
- ✓ Recording equipment installation and user training
- ✓ 24/7 support with access to Revcord’s online support portal
- ✓ 24/7 system monitoring  
All Revcord software upgrades

## WHAT ARE SOME ADVANTAGES?

- ✓ Affordable annual payment
- ✓ No approval for capital expenditures
- ✓ No RFP process
- ✓ Greater control over expected costs
- ✓ Fixed prices with signed contract

LaaS INCLUDES:

- ✓ Recording Equipment
- ✓ Installation and End User Training
- ✓ 24/7 Support with Access to Support Portal
- ✓ 24/7 System Monitoring
