

MUNICIPAL INSPECTIONS

THE PROBLEM

- ✓ Inaccuracies in Documentation of Onsite Inspection Information
- ✓ Unorganized Findings, Photos and Data
- ✓ Wasted Time Due to Limited Collaboration
- ✓ Repeat Onsite Follow Up Visits to Revise Incomplete Or Incorrect Reports
- ✓ Increased Liability from Lack of Transparency

THE SOLUTION

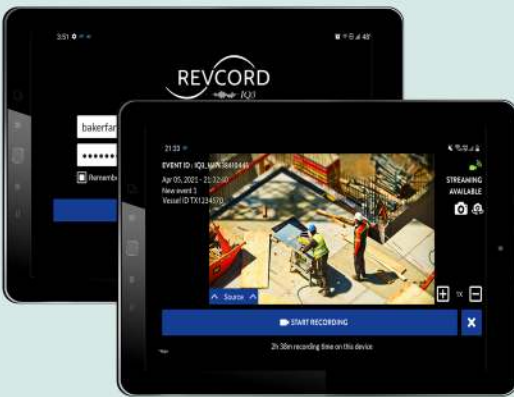

- ✓ Capture 100% of Audio and Video of Onsite Inspections
- ✓ Attach and Centralize Reports and Files
- ✓ Collaborate with Live Streaming and Chat
- ✓ Customized Inspection Process Flows are Built-in to the Application
- ✓ Inspections are Stored and Securely Accessible in the Cloud

THE VALUE

- ✓ Significantly Increases Documentation Accuracy
- ✓ Streamlined Storage of All Documents, Regardless of Who Created the Files
- ✓ Live and Accessible Findings with Colleagues
- ✓ Dramatically Reduces Need for Onsite Follow-Ups, Freeing Up Time and Expenses
- ✓ Live Recording and Centralized Documentation Substantially Reduces Liability Issues

FEATURES

- Recorded Events For Post Event Analysis, QA & Reports
- Text Chat, Notes, Bookmarks, Geo-Tagging
- Video Conferencing with Multiple Parties
- Share Events with All Stakeholders
- Privileged And Confidential Documents
- HTML5 And IE11 Compliant

IQ3 IS THE NEW GENERATION OF SOFTWARE FOR PUBLIC SECTOR MUNICIPAL INSPECTIONS

IQ3 allows you to create multimedia-rich inspection events using an Android or iOS Application. Stream your inspections live, record with markers and marker notes, create audio and chat conferences, and automatically upload to a secure portal in a Tier-4 Data Center. Manage all your inspections in one location. Watch them live and search them by date, time, inspector, marker, and marker notes, or any one of the over 40+ indices. In addition, IQ3 performs inspector QA/QC analysis and evaluations and provides customized reports based on your specified criteria.

FEATURES

- Simple Operation
- Accurate Documentation
- Reports with 40+ Indices
- Allows for Live Collaboration
- Secure File Lockers for all Related Documentation
- Customized Inspection Process Markers
- QA/QC- Analysis and Evaluation
- Manage all Inspections in One Location
- Search for any Inspection for up to 5 Years

IQ3 Increases Inspection Accuracy and Dramatically Reduces Liability Issues and Related Costs

Revcord, a provider of state-of-the-art integrated call and multimedia recording solutions, developed the IQ3 platform to provide a simple, practical, and cost-effective audio and video recording solution for mission-critical organizations. IQ3 facilitates collaboration, increases productivity, reduces expenses, and mitigates risk for all stakeholders.
