

INSPECTIONS FIELD AUDITS & JOB SAFETY AUDITS

THE PROBLEM

Inaccuracies In Documentation Of On-Site Inspection Information

Unorganized Findings, Photos & Data Due To No Centralized Storage

Lost Time Due To Limited Collaboration In The Field

Repeat On-Site Follow Up Visits to Revise Incomplete or Incorrect Reports

Drives Up Costs Increased Liability from Lack of Transparency

Unnecessary Downtime Due to Lengthy Inspections

THE SOLUTION

Capture 100% Of Audio & Video Of On Site Inspections

Collaborate With Live Streaming And Chat

Attach & Centralize Reports And Files

Simple & Robust Data Management Software

All Recordings are Stored Securely In The Cloud

Customized Inspection Process Flows are Built into the Application

THE VALUE

Significantly Increases Documentation Accuracy

Streamlined Storage Of All Documents, Regardless Of The Author

Dramatically Reduces Need For On Site Follow-Ups, Freeing Up Time and Expenses

Live Recording And Centralized Documentation Substantially Reduces Liability Issues

Live and Accessible Findings with Colleagues

Reduces Downtime from Days to Hours

FEATURES

- Video Conferencing With Multiple Parties
- Text Chat, Notes, Bookmarks, Geo-Tagging
- Privileged And Confidential Documents
- Recorded Events For Post Event Analysis, QA & Reports
- Share Events With Other Investigators
- HTML5 Compliant

REVCORD IQ3 IS THE NEXT GENERATION OF SOFTWARE FOR INSPECTIONS, INVESTIGATIONS AND INTERVIEWS

Revcord IQ3 creates inspections, interviews, investigations, and incidents using an Android or IOS Application. It can stream them live, record with bookmarks and notes, create audio and chat conferences, and automatically upload to the Revcord Tier-4 Data Center. Manage all of your recordings in one location. Watch them live or later search on date, time, interviewer/investigator, interviewee, bookmarks, bookmark notes, GPS location, and device ID, or any one of over 40+ indices. In addition, IQ3 performs inspector QA/QC analysis and evaluations and provides customized reports based on your specified data.

Companies that conduct regular audits and inspections as part of their operational requirements or as part of their services, logging both audio and video via smart devices can simplify their processes, improve accuracy and limit liability.

Revcord IQ3 captures both audio and video at any post incident inspection or event in real-time. Used for any type of meeting or interview, IQ3 enables simple recording, bookmarking, chat, and streaming from any location on an Android or IOS device via Wi-Fi or cell phone service (Based on service carrier). Events are stored and managed in a secure cloud environment for later viewing, reformatting and distribution. Activity and audit reports can also be run to ensure a true "Chain of Custody".

FEATURES

- Simple Operation
- Accurate Documentation
- Attaches Files/Graphics to the Record
- Secure Cloud Storage at a Tier-4 Data Center for Recordings and All Files/Graphics
- Allows for Live Collaboration
- Share Findings Live with Colleagues
- Creates a Comprehensive Record on Site
- QA/QC - Analysis and Evaluation
- Customize Inspection Notes and Bookmarks
- Create Customized Reports with 40+ Indices
- Manage All Recordings/Data in One Location
- All Data Searchable for up to 5 Years
- Reduces Cost of On-site Follow-ups
- Increases Inspection Accuracy
- Substantially Reduces Liability Issues
